CITY VALUATION AND COUNTY LIST TO BE COMPARED

Equalization Board Adopts New Method-Appraisals Made by City-State and County Show Divergence.

Members of the city board of equalization will use entirely new methods this year in reviewing assessment figures submitted by T. G. Scarbreigh, city assessor. They will stend at least a week in going over valuations in all the wards as returned by the assessor. These will be compared with those made last December by agents of the state board of equalization, and also with the valuations now being made by W. T. Conden, county assessor.

This comparison of three separate valuations on the same property, will give members of the board a working basis upon which to make any changes, either up or down, in the city assessment. This work will require at least a week, and may take twice that time. The books will not be thrown open for public inspection until these comparisons have been made, as they will be in use daily by members of the board. A wide range of values is disclosed by the three appraisals. Mr. Scarbreugh's total is in round figures \$112.000,000 on city realty. The state appraisal was \$227,000,000, or more than double the values fixed by the city assessor. Mr. Condon has been making some reductions in many of the wards, and, while his work is only about two-thirds complete, it has been estimated that reductions made will probably not wnount to more than about \$25,000,000. That would leave the assessment of eity realty for state and county purposes at about \$200,000,000, a wide margin over the city assessment proper.

Property owners may probably expect that increases will be made by the city assessment includes besides resulty, the personalty taxes, merchants' capital and the assessment of railroads and public utilities.

Tentative estimates made by Mayor Paine indicate that the public utilities.

the assessment of railroads and public utilities.

Tentative estimates made by Mayor Paine indicate that the public utilities and railroads will be assessed this year at around \$30,000,000, as against \$16,000,000 last year. Personally assessments hast year were about \$11,000,000 and may be a million or two more this year. Adding these estimates to the realty assessment would give a total for this year of \$170,000,000. That is \$30,000,000 least than the total Mayor Paine hopes to have on which to base the tax levy, which he intends to fix at \$2 this year.

Taxpayers will be notified of the dates for hearings on changes in each ward by newspaper advertisements. The board formerly held sessions for but two hours daily. This year it will probably hold both morning and afternoon sessions and may give two or three days to each of the larger wards. Open sessions will not begin until the middle of the coming week and possibly not before April 15.

Open sessions will not begin until middle of the coming week and pos-sibly not before April 15.

FREIGHT EMBARGO ON AT BUFFALO, N. Y.

BUFFALO. N. Y. April 8.—An embarge on all freight novement in and out of Buffalo railroad yards went into effect today and the position of the striking insurent switchmen was strengthed by refusal of fitemen and enginemen to work with switch teniers and yardmen cutsids the ranks of the strikers, who have organized under the name of the yardmen's association.

A practical suspension of business in the stock at East Buffalo and bregarations to suspend operations in the blast furnaces at steel and into plants because of the embarge on the movement of coke were among the first serious effects of the tie-up.

Railroad officials said that no demands had been submitted by the strikers, but it was believed representatives of the men would seek a conference today.

TATE COUNTY PLANS TO RAISE MORE FEEDSTUFF

SENATOBIA. Miss. April 8. (Spl.)

The commercial club of Senatobia has been reorganized and new officers elected. One of the prinicipal matters with which the club is now concerned is helping Tate county raise enough foodstuff this year. The amount of feedstuff being shipped into the county is alarming. The campaign to reduce the high cost of living which is being conducted in the county reveals the fact that large numbers of stock have died this winter because of the lack of foodstuff.

NEW LEAGUE IS LAUNCHED TO AID TROUBLED WORLD

LONDON, April 8. (By International News Service.)—A new league for the betterment of a troubled world has been aunched in London by means of a pub-lication, "The New Commonwealth." which takes as its model Abraham Linwhich takes as its model Abraham Lancoln's statement regarding "of the people, by the people, and for the people,
"The New Commonwealth" pleads for
members for an organization to be
known as "The National Union of Citizens." It declares "that we, the people, must use our power, we must play
the game and not misuse our power, and
we must have a program."
Included in this program is the formation of a federation of Englishspeaking peoples. Briefly, the leading
planks in the platform of "The National Union of Citizens" are as follows:

tional Union of Citizens are as ion-lows:

[1] Vested Interests. To fight all "vested interests," because being mon-opolistic they must necessarily be against the interests of the commun-tive. against the interests of the community.

(2) Tyranny—To combat tyranny in any form, whether expressed through capitalistic domination, so-called "direct action," revolution or mob rule.

(3) Liberty—To secure the re-establishing of liberty of sonscience, of speech, and of the press, and the re-assertion of individual freedom.

(4) Land—To acquire the land for the community because land ownership outrages the modern sense of justice. Confiscation or state purchase is, however, equally objectionable.

(5) Nationalization—To oppose nationalization because it means hordes of government officials, recognizing no duty to the community, doing as little work as possible, and behaving as if they were a class apart. work as possible, and behaving as in they were a claim spart.

(6) Co-partnershin—We believe the solution of our industrial difficulties will be found by the wage earners and salaried staff combining and compelling

capital to enter into partnership with them. This partnership should not only apply to profits, but extend to every function now claimed exclusively by capital.

(7) Education—A national system providing free educational facilities from the county council school up to and netuding in suitable cases, Oxford and

including in suitable cases, Oxford and Cambridge.

(8) Endowment of Motherhoow—The state to recognize its obligation to feed and clothe all children up to the age of 18 and to pay to the mother for each one of her children—whether legitimate or Regitimate—the sum of 10 shillings a week for such purpose.

(9) Ireland—It is both grotesque and tragic that we should have the stupidity, as well as the impertinence, to refuse home rule to, or the inauguration of a dominion of Ireland.
